Atlas Services Group

We invest in people

In challenging markets where demand for talented professionals outstrips supply, skilled people are more valuable today than ever before. Atlas is dedicated to working with these professionals every day. We encourage them by supporting and stimulating their development, to ensure we can offer our clients tailored solutions – now and in the future.

Active worldwide

For more than 25 years, Atlas has developed expertise and a reputation for excellence in the global oil and gas industries, the maritime sector and the seismic and hydrographic industries. Within each of our markets, Atlas's dedicated business units give you access to a large number of professionals in a broad range of disciplines. Each day, more than 1,250 experts are at work through Atlas.

Customised services

Our aim is simple: we bring employers and professionals together. Yet we offer so much more. Whether you need a specialised production supervisor or an entire crew, our skilled professionals can be outsourced, given permanent appointments or employed on a temporary basis. For short term assignments or long term solutions, we can look after your pool management, logistical support, absence management and ship management. The quality of Atlas is your answer to an adequate solution for all your personnel and crew needs.

The background of the slide features a large-scale industrial scene at sea. In the foreground, a massive red offshore platform, identified by the name 'WILLEMSTAD' on its side, is supported by several thick black steel legs. A yellow helicopter landing pad is visible on one of the upper decks. To the right, another complex structure is labeled 'SEAFOX 2'. In the middle ground, a bright orange supply vessel with white superstructure is positioned near the rig. The sea is a deep blue-grey with visible whitecaps. The sky above is a clear, solid blue. A semi-transparent white rectangular box is centered over the image, containing the text.

People make the difference

The professionals we select are well-trained and qualified for their task. They hold all necessary competences, work experience, certificates and diplomas, permits and visas. All our professionals are subject to annual evaluation in co-operation with our customers via our assessment reports.

At Atlas, the supervision of professionals is intensive and we offer excellent terms of employment, attractive benefits and caring support to our professionals. We also provide opportunities to study and - most importantly - we offer continuity to build rewarding careers that suit each individual's needs. As a result, our professionals are motivated and ready to make a difference to your organisation.

Atlas Tristar

Oil & gas professionals

Atlas Tristar specialises in the deployment of professionals within national and international oil and gas companies, as well as in service and engineering companies. Across a number of global offices, Atlas Tristar has divided its sphere of activities into two areas: Operations and Engineering.

Professionals for operational and engineering level

Atlas Tristar Operations fills positions in the fields of production and maintenance, well services and drilling.

Atlas Tristar Engineering seconds engineering professionals to oil and gas producing countries all over the world. Our engineers are active in the fields of drilling and well services, HSE, project engineering, discipline engineering and project services.

The background of the slide is a photograph of an offshore oil rig deck. In the foreground, a worker in an orange safety suit stands on a green-painted deck. In the middle ground, a white helicopter is landing on a helipad. The background shows the ocean and a blue sky with some clouds.

Geophysical Exploration Consultancy

Various methods of quality control and supervision can be implemented while executing seismic surveys. At Atlas we take a transparent and direct approach. As a result, consultants focus on the actual job. This approach allows us to offer both consultant and client the best possible services.

Atlas Seistech supplies professionals to the worldwide oil and gas industry in the following fields:

- 2D/3D/4D Marine Seismic Survey Supervision
- OBC and Land Seismic Survey QC
- Navigation and Positioning Specialists
- HSE Management
- Marine Mammal Observation
- Environmental Monitoring

Atlas Seistech

Seismic & hydrographic professionals

Atlas Seistech supplies high quality professionals to the seismic and hydrographic industries, with activities divided into two areas: Operations and Geophysical Exploration Consultancy. We deploy experts on survey and construction ships, pipe-laying ships, platforms, seismic research vessels worldwide, in both offshore and onshore locations. Whether you are looking for survey and seismic crews or a company representative, Atlas Seistech offers you the solution for all your personnel needs.

Atlas Seistech operates in a range of fields, including:

- Seismic surveys on land and sea including 2D, 3D, 4D, OBC, TZ, EM and WATS
- High resolution seismic surveys (oil rig site and platform site surveys)
- Hydrographic surveys
- Geotechnical surveys
- Cable lay surveys
- Offshore construction site surveys
- ROV activities
- Research projects for universities and government agencies

Atlas goes one step further

Atlas Eurosailor on shore Maritime professionals who choose to work on shore after a career at sea can continue to count on the services of Atlas Eurosailor. We provide recruitment, selection and secondment of nautical and technical personnel for the entire maritime sector.

More efficient crew management With Total Crewing, Atlas takes care of all your personnel management - meaning that recruitment and selection, mobilisation, work permits, planning and other time-consuming tasks can be left to us. High quality, flexibility, continuity and cost-efficiency are assured.

Atlas Eurosailor

Maritime professionals

For each vessel type or project, Atlas Eurosailor can meet your requirements in total crewing or individual experts on demand. Whether your requirements span days or years we are fast, flexible and creative in finding solutions. Our service areas: merchant navy, heavy transport ships, offshore support and supply vessels, tug boats, anchor handlers, dredging fleet and self-navigating platforms.

We understand global labour markets and international rules and legislation. And with a worldwide network of offices and experienced staff, Atlas Eurosailor can provide custom solutions as nobody else can.

More than 25 years of investment in growth

At Atlas, our goal has always been to achieve the leading market position by providing the very best services. Beginning as an agent for worldwide transport in 1982, we've grown energetically ever since. We quickly expanded our activities to include maritime personnel services, and began working with oil and gas industry professionals soon afterwards.

Since then we have continued to develop an impressive international portfolio and expanded our business by including, amongst others, professionals for the seismic and hydrographic industry. However, we won't rest on our laurels. Within our fields of expertise, we are driven to reach the highest levels and to maintain our quality position.

Atlas Ship Delivery

Consultancy & contracting professionals

Atlas Ship Delivery can deliver your ship, perform ship management and inspections and handle ship conversions anywhere in the world. We offer expert advice to our customers in the maritime and offshore industries with regard to HSE/QS matters. In coordination with the business units of the Atlas Services Group, we look after professional crewing solutions.

Our turnkey solutions can be delivered on a consultancy basis (daily rate) or project basis (lump sum).

Partner with Atlas Services Group

- Knowledge of local and international labour markets, rules and legislation
- Qualified and motivated personnel
- Access to up-to-date CVs of 200,000 professionals
- Custom solutions for filling vacancies
- Assured of capacity and flexibility
- Full support for administrative and logistical matters

Atlas Jaymar

Oil & gas professionals and crew services

Operating from offices in Brazil and Cyprus, Atlas Jaymar delivers specialized professionals to the onshore and offshore oil and gas industries. For an individual consultant or an entire crew, count on us.

Atlas Jaymar's professionals are trained in accordance with current guidelines and are able to perform their duties with competence. We supply every type of offshore platform or ship (such as supply and diving ships), DP and Conventional Drilling Units and FPSOs.

Our customers benefit from comprehensive services around recruitment and selection, training programmes, logistical support and payroll services.

The background of the top section is a dark blue gradient. On the left side, there is a vertical strip showing a close-up of industrial machinery, possibly a ship's engine or a large pump, with metallic components and bolts visible.

The services of the Atlas Services Group

Secondments and temps

We employ professionals that can be deployed for longer or shorter periods of time. We also recruit and select flex workers who can be deployed on a temporary basis, offering you optimum flexibility.

Recruitment & selection

If you're looking to directly employ suitable personnel, Atlas's recruitment and selection services can provide industry-specific expertise and worldwide scope. We'll employ our considerable knowledge and resources to find the right candidate for every vacancy.

Consultancy

If you're a consultant or an entrepreneur with your own company, Atlas can help you find exciting new projects.

Pool management

Our national and international branches manage diverse pools of specialists, in disciplines ranging from well service operators to hydrographic professionals.

Online services

Atlas4Jobs offers skilled professionals the opportunity to find suitable roles. Employers can quickly select the right candidate from a choice of thousands.

Employability

With industry-specific HR expertise, Atlas Employability Services offers specialised advice on reintegration, absence coordination and outplacement.

Payroll and salary administration

Atlas can employ your employees, meaning you won't have to deal with salary payments, labour contracts and any other statutory regulations. You can also outsource your salary administration with us.

Education and training

By offering them schooling and learning opportunities, we ensure our professionals maintain their skills and knowledge at the highest level. We also organise tailored training, in consultation with our clients.

Logistical support

Atlas shares its knowledge of international conditions with our customers and professionals on a daily basis. We offer support and advice on insurance, visas, work permits, transportation to work locations and temporary housing.

Worldwide ship delivery

Atlas Ship Delivery specialises in worldwide ship delivery and ship management.
