

Snails® are innocent  
as a child

*The world's first  
100%-safe children's  
nail polishes are here.  
And they're loads of fun!*

**Colourful & fabulous fun for kids**

**Why Snails® are super safe**

**Choose from 11 charming colours**

Try Candy Floss pink, Make-a-Wish gold and nine more.

Snails polishes dry to a salon finish in 3 minutes.

**Mums! Snails don't stain clothes**

Clean up little accidents easily, thanks to Snails' revolutionary water-soluble formula.

**Get creative with Snails Markers**

Hearts, flowers, stars... little girls love drawing on their nails! So instead of toxic pens, give them Snails Markers in 10 pretty colours.

**School time?**

Just wash Snails off. No stinky chemicals needed.

**No harmful chemicals**

Many kids' nail polishes contain the "toxic trio" DBP, toluene and formaldehyde. Ours don't.

**A true world's first**

Other water-based polishes still require harsh makeup removers. Only Snails lets your kids decorate their nails without ever touching nasty substances.

**As pure as you'd hoped**

Snails are made from just three basic ingredients – water, acrylic polymer and non-toxic colorants. Simple but clever.

**Snails tick every box**

They're hypoallergenic, biodegradable and free from preservatives. And they still last for two years.

# Made responsibly in Europe

## Snails are moving fast

Snails offer something truly unique and fun to makeup sellers, department stores, online retailers and everywhere cosmetics are sold. Snails are brand new and generating lots of excitement worldwide. There'll never be a better opportunity to bring Snails to your location first, before your competitors do.

To find out more about stocking or distributing Snails, contact Jeanette Sklivanou on +30 210 9590522 or email [jsklivanou@safe-nails.com](mailto:jsklivanou@safe-nails.com).

Snails are the creation of one British mum who adores her kids and wanted every family to have as much fun as they do.

Developed and made in France, home of the world's finest cosmetics, Snails are also delightfully kind products.

Kind to animals, who we never test on. Kind to the environment, because all our bottles and boxes are made from recycled materials. And especially kind to delicate little hands, which Snails' safe children's nail polishes make really happy!
